A READING FOR YOUR LIFE

Hello Friend,

How are you experiencing life? Have you achieved balance in the 6 major areas of your life? Are your career, relationship, physical, mental, spiritual, and cultural areas of life balanced? What needs attention so that it doesn't cause a rocky dissatisfaction in your ride along life's highway?

When we look at life as a wheel, the ideal is that it rolls along smoothly because all these areas are balanced. You are happy and living well. When one or more areas is not as satisfying as the others, there's a bumpy quality present.

One of the tools I use to counsel people to get what they want in each of these areas of life is the Voyager Deck of tarot cards. They are an ancient technology for today's situations. They show you the picture of your energy in a given area and a path to what can be done to remedy the situation.

Coaching holds you accountable to reach the goal that you prefer in career, relationship etc. As Coach I provide the strong arm that supports you during the rough patches as you move toward your goal. Let's take a look at one of the Life Cards and its message for your balance in life.

Life Card: Fortune #10

Good fortune is the ideal. We are asked to be aware of our blessings in all areas of life. When we wish to have different experiences it's about changing our way of thinking or feeling about an area. We can approach our good fortune by knowing that life is a wheel that turns and provides us opportunities to increase our positive outlook despite appearances. However, when it appears to be on a down cycle, we can choose to think positive, support our health with good habits, and feel supported by our universe.

One outstanding image on the Fortune card is that of a matador stepping aside from a charging bull. Its interpretation: have a positive outlook so that you can side step the "bull" or the illusion of bad news that appears to be happening. Count it all good and persevere to your goals. See everything that happens as a reminder to remain grateful and focused on your greatest good. Balance yourself on the eternally moving wheel of fortune when you shift your perspective to ask this question: How can I turn this situation to my advantage?
